Concrete Compaction Portable Magnetic Vibrating Tables

These robustly manufactured vibrating tables conform to the requirements of AS1012.8.1. They have been developed for field use with 12V DC operation, they are supplied with 4m of electric flex together with a fused cigarette lighter fitting.

They can be manufactured with a 'holding down mechanism, as shown here

6 Concrete Cylinder Moulds

Flex. Beam Mould

Specifications

- 50hz (min.), 12V DC
- Magnetic bed: 400 x 200mm
- Mass: 40kg

Features

- Reasonably portable (mass 40kg)
- No clamping system necessary
- Waterproof on-off hold down switch
- Leveling system with built in "bulls-eye" bubble
- Can handle up to 6 x 100mm dia. Cylinder Moulds or 100mm wide Flexural Beam Moulds
